Prelim question papers are prepared by very senior teachers in ICSE Schools who are experts in their subjects and have deep knowledge about ICSE Board Exam trends and paper patterns each year since they have been teaching for over 15 to 20 years and preparing their students to score best overall percentage. This package brings all this rich experience to you so you can struggle less and study the right thing for your board exam.

Subjects like English Language, English Literature, Mathematics, Hindi, History/Civics, Geography, Physics, Chemistry and Biology are included in this package. There are also some question papers of Computer Applications, Commercial Applications and Kannada.

Prelim papers cover many questions that are usually not found in textbooks (Ever wonder where your teachers get those tricky questions in class tests? It is most likely from Prelim Papers!). Having this book with you while you study for board exams is very helpful because you can go over all the related questions in these papers after studying a chapter to make sure you didn't miss something. The questions are usually given in variety of tricky, twisted and turned around ways, showing the type of questions you might expect in your exam, and allow you to practice answering them to avoid surprises in the final board exam. It will give you lot of confidence and positive energy to appear well for board exams.

Depending on how much you wish to practice, this package is available in multiple options. You can get question papers in sets of 5 schools, 10 schools, 20 schools or 30 schools. Here is a simple pricing structure:
